Abishek Kamalarajan

Geospatial Data Analyst | Surveyor | Geographic Information System

Hatton, Sri Lanka +94 76 412 1844 abishek.kamalarajan@gmail.com

Abishek Kamalarajan Abishek-Kamalarajan Portfolio

PROFESSIONAL SUMMARY

Final-year Surveying Sciences undergraduate (GIS specialization) at Sabaragamuwa University of Sri Lanka, also pursuing a Higher Diploma in IT at UCSC. Completed a surveying internship at SULECO Private Limited covering GNSS control surveys, levelling, RINEX processing and CAD drafting, and built a Python-based land-use transport interaction (LUTI) model for the Kandy district. Seeking a GIS/Geospatial Analyst role applying spatial analysis and remote sensing to urban planning and environmental challenges.

TECHNICAL SKILLS

GIS & Spatial
QGIS, ArcGIS Pro, ArcMAP, Leica Infinity, iTwin Capture Modeler, DJI Terra

Programming
Python, SQL, JavaScript, HTML, CSS

Tools
AutoCAD, Civil3D, Google Earth Engine, Google Earth Pro, PyCharm, Excel

EDUCATION

B.Sc. Honours in Surveying Sciences (GIS Specialization)
Sabaragamuwa University of Sri Lanka, Ratnapura
October 2022 – Present

Higher Diploma in Information Technology (HDIT)
University of Colombo School of Computing (UCSC)
October 2025 – Present

Diploma in Information Technology (DIT)
University of Colombo School of Computing (UCSC)
October 2024 – July 2025

G.C.E. Advanced Level — Physical Science
Highlands Central College, Hatton
2020

LANGUAGES

English — Professional working
Tamil — Native
Sinhala — Professional working

MEMBERSHIPS

Individual Member

UNDERGRADUATE RESEARCH

Integrated Land-Use Transport Interaction (LUTI) Model for Sustainable Urban Growth in Kandy
Python, AequilibraE, UrbanSim, PyCharm *August 2025 – June 2026*
GitHub repository

- Designed and implemented a macroscopic LUTI model utilizing **Python**, **AequilibraE**, and **UrbanSim** to simulate and analyze multi-modal transportation scenarios across the Kandy district.
- Engineered robust geospatial workflows and spatial algorithms within **PyCharm** to evaluate urbanization-driven trends and sustainable development metrics.
- Directed comprehensive data acquisition, successfully sourcing and integrating 2024 transportation datasets from key national agencies (RDA, NTC, and Census Department).

INDUSTRY EXPERIENCE

Intern Surveyor July 2026 – October 2026
SULECO Private Limited *Pitakotte, Sri Lanka*

- Contributed to monument and control establishment, static **GNSS** observations, and a 28 km level line during a field survey across Arugam Bay, Pottuvil and Panama.
- Checked and organized survey records, prepared levelling sheets, drafted bridge and culvert details in **AutoCAD**, produced river sections in **Civil 3D**.
- Downloaded and post-processed **RINEX** data using **Leica Infinity** and learned **CORSnet** workflows.
- Supported the initial CMC survey at Thalakotuwa Gardens through planning, control establishment, **GNSS** and **Digital level** data collection, and initial data export and processing.
- Helped prepare **GNSS** equipment and delivered user workshops.
- Gained exposure to **LiDAR processing**, UAV platforms (DJI Matrice 300 RTK and Matrice 4T) and drone regulations.
